

App Solution

Sell subscriptions on iOS or Google Play (or distribute for free), get valuable statistics on all your readers, and get all the features you need including push notifications, bookmarking, statistics, registration and more. All for a fantastic price.

Sell subscription or single copies with MediaWire's native app solution. Apps for magazines have never been more simple or affordable. One simple upload and your digital magazine become available on all Android and ios devices. Most digital magazine publishing software will deliver a web based or flip book, our solution offers the maximum exposure by leveraging the traffic in the ios apps store and Google play.

Native magazine branded apps could become a valuable revenue generating resource for your brand.
